*"For those of you who are new to harmonic star codes, they are a powerful yet simple way for every man, woman and child to exercise their/your living, breathing right to heal. **It's that simple.** Harmonic codes may be numbers, they may be complex sacred geometric forms, they may be colors, and harmonic light codes can also be toning or sound codes. Each of you may not feel them, see them, or even fully understand them, but star codes are the wave of the future in many ways, providing easy access to dozens and dozens of Star Races. **They are a form of light language...**a different form than used in Star Healing Intergalactic Energy <sup>TM</sup>. In some cases, a full immersion into this magnified healing system along with Ascended Spaces may be necessary.*

*Light language itself keeps expanding, with more Star Races pouring more of their languages to earth. The study of sacred geometry is also expanding as the forms themselves are being upgraded. Everything is being upgraded whether you can see this or not." --Archangel Michael*

***Everything is highly charged.***

- *Star codes are charged not only from the vessel that is providing the information to you (in this case, Kelly)*
- *Star codes are charged from the numbers themselves*
- *Star codes are charged by the Sources*
- *Star codes are charged by many different things.*

**Here are the general channeled star codes (light language) for the following conditions as my FREE offer to you.**

**All the codes were channeled directly to me from Archangel Michael and my Pleiadian family:**

- preventing or slowing down wrinkles  
***1111557yellow, green, blue, white, white***
- building collagen  
***dnadna555999dna555999***
- building muscle tone  
***green, brown, blue, 8,9,10,12,15,19, 30***
- restoring hair loss  
***27, F, L, J, JJ, 5, 11, C, K, pink***
- “Youthing” and longevity  
***P,P,D,O,M,9,99,88,K,9,***
- Belly fat reduction  
***9,8,7,6,5,4,3,2,10,12,29,55,yellow,green,teal,turquoise***
- Energy boost  
***10,K,Q,C,white,green,violet,magenta,teal,10***
- Eyesight improvement  
***White,white,red,F,L,9,5,7,11,45,16***

***There are multiple ways to use harmonic star codes in your life.***

A person may write the code down on paper and keep it near their energy fields while stating the intention for the specific code. A person may choose to write the code energetically in their mind in front of them as it will be in their energy field.

***Will a person have toxic release symptoms after using a code as in traditional healing?***

Yes, they may. Drinking plenty of water will aid in the toxins being released. These are energetically charged light language segments and should be treated as such. Not all souls will experience releases that they are aware of. About half will and half will not.

***Are some people able to use a star code for the same condition more than once?***

Yes, some individuals who are working with energies and have experienced levels of energetic healing may find that they are “accustomed” to the changes in energy vibration. These individuals may use the same code up to 3 x’s a day by writing them, or wearing them (Star Code Accessories), or verbally stating them and setting the intention out loud to either heal or expand.

***Does it matter if the star codes are written in capital letters or lower case?***

*It does matter to a certain extent. Generally, capitol letters are preferred, unless a soul has clear knowing of using the lowercase version.*

***“You may state that some individuals will benefit from healing star codes (a form of light language) alone, while others will need a direct connection to Source through Star Healing Intergalactic Energy™. In the densest of situations, by also including implementing Ascended Spaces for their homes.”— Archangel Michael***

***As another bonus! Archangel Michael would love for you to have and use the Universal Light codes...  
What are those? The star codes to "Heavenly Matter"-- joy, love, hope and compassion.***
